

UNIFEM is a foundation at the United Nations dedicated to advance women's rights and achieving gender equality. It provides financial and technical assistance to innovative programs and strategies that foster women's empowerment.

The Hungarian National Committee released this book as a report containing the most recent publications about the situation of women in Hungary. Most of the studies in Chapter 2 were based on findings from existing research projects within the EU Framework Programs including HWF and Workcare. The book introduces successful women from very different social and occupational groups, and contains photos to illustrate the life of a woman in contemporary Hungary from diverse angles.

The book was designed with the help of Imagefactory Ltd. (the partner of Workcare Synergy in dissemination and knowledge transfer) and will be distributed among the politicians, policy makers and the leaders of the most influential business actors.
